

## REFLEX HORN BTYPE 18INCH

**Description-:** The PENZA Reflex Horn is a powerful and efficient loudspeaker solution designed specifically for public address and outdoor sound reinforcement applications. Built with a robust reflex horn structure, this model ensures maximum sound projection over long distances while maintaining clarity and precision.

### Key Specification-:

- Designed with a reflex horn structure, it provides very high efficiency and delivers loud, clear audio suitable for outdoor and long-distance coverage.
- Built with a durable aluminum/ABS horn flare and powder-coated finish, it withstands outdoor weather conditions and long-term use.
- Many reflex horn models come with IP-rated protection, ensuring resistance to dust, rain, and extreme temperatures.
