

## PE 10 CUBE

**Description:-** The Penza PE-10 Cube is a compact, portable audio system designed for versatility and ease of use in casual as well as semi-professional settings. Its small-cube form factor makes it ideal for home gatherings, small parties, or outdoor get-togethers, while still offering a suite of features tailored to modern audio needs.

### Key Specification:-

- Multimedia Playback Options — Supports USB, TF (microSD) cards, and FM radio, enabling playback of music or audio files from multiple sources.
- Remote Control & User Interface — Comes with a remote control for ease of operation; user interface enhancements such as voice prompts.
- Wireless Microphone Support / Integration — Part of Penza's cube / party box series, it likely supports Penza's TWSSYSTEM or digital microphone integration.
