

PGT STAND

Description-: The PGT Microphone Stand is a versatile and durable solution for musicians, speakers, and audio professionals who require stability and flexibility in both live and studio settings. Designed with high-quality materials and practical engineering, the PGT stand ensures reliable performance across a wide range of applications.

Key Specification-:

- Steel or mild steel tubing is commonly used, possibly with chrome plating or powder coating to resist rust, wear, and provide durability in frequent use.
- The mic mount is probably a standard 5/8-27 or similar thread, possibly with adaptors (like 5/8 to 3/8) to fit various clips and mic holders.
- Expect a black or silver metallic finish (matte or glossy) depending on design; often with minimal aesthetic decoration but built for function.
