

PJ SERIES AMPLIFIER

PENZA

PJ-4K2 AMPLIFIER

Description:- PENZA PJ-4K2 is a rugged and most reliable amplifier professionals requiring sonically superior high power sound performance. it has in-built frequency controls which enable precise and accurate tone setting of sound quality .

Key Specification:-

- Penza PJ-4K2 offer multiple input sensitivity options (0.775 V, 1 V, 1.4 V) to accommodate varied signal sources.
- Penza PJ-4k2 is 20Hz to 20kHz with minimal deviation (e.g., ±0.5 dB), ensuring clean, full-range audio output.
- Penza PJ-4K2 dual-channel outputs, enabling stereo or dual-speaker setups.
- Penza PJ-4K2 maintain THD+N below 0.03%,delivering distortion-free sound.

Features:-

MODEL NO.	PJ-4K2
POWER OUTPUT	2300+2300W MAX
TONE CONTROL	BASS,MID,TREBLE
INPUT IMPEDANCE	10K UNBALANCED
FREQUENCY RESPONSE	30-20,000 Hz
CHANNEL SEPARATION	70dB @1KHz
POWER SUPPLY	220~240v, 50/60Hz
COOLING	4 Ac Fan
WEIGHT	40.30 KG
