

## TY-2501-C TWEETER

**Description:-** TY-2501-C is a high-frequency driver with a 25mm voice coil, an 8-ohm nominal impedance, and a sensitivity of 92dB. It's designed for a usable frequency range of 1.8 kHz to 14 kHz and handles a rated power of 30W with a maximum power capacity of 60W.

### Key Specification:-

- A small format diaphragm compression driver designed for mid-range
- The driver has a rated bandwidth of 1.5kHz to beyond 20kHz.
- This features an industry-standard screw-on style exit that allows the driver
- The driver features a mid band output rating of 105dB with a one-watt

### Features:-

MODEL NO.	TY 2501 C
MAX POWER	40W
VOICE COIL DIAMETER	25.4 MM
NOMINAL IMPEDANCE	8Ω
SENSITIVITY	106 dB.
SENSITIVITY	20 Hz.
