

SS-01 STAND

Description-: The SS-01 Speaker Stand is a versatile and durable floor stand designed to provide stability, functionality, and an improved listening experience for small to medium-sized speakers. Built with precision and crafted from high-quality heavy-mass steel, this model ensures strength and durability, making it suitable for both home .

Key Specification-:

- The stand's height can be varied between 680 mm and 1,100 mm (26.8" to 43.3") allowing placement at ideal listening levels.
- It includes a concealed wiring path within the pole/base, helping keep cables neat and reducing visible clutter.
- The steel construction is finished in matte black, making it visually unobtrusive in most environments.
