

## AQUA-99 MICROPHONE

**Description-:** The **AQUA-99 Professional Wired Microphone** by **Penza Audio** is a durable dynamic handheld microphone designed for stage performances, karaoke, DJ events, conferences, and public address (PA) systems. It provides clear vocal reproduction and stable wired connectivity, making it suitable for both speech and singing applications.

### Key Specification-:

- Professional dynamic wired microphone for vocals and speech
- Unidirectional pickup pattern reduces background noise
- Clear and natural sound reproduction for stage use
- Durable metal body construction for long-lasting performance
