

PCM-15T SPEAKERS

Description:- The PCM-15T is a professional-grade column speaker designed for both indoor and outdoor public address applications, such as in halls, auditoriums, and airport lounges. Manufactured by PENZA Audio.

Key Specification:-

- Aluminum extruded body, with molded plastic covers and metal mesh grille.
- Slim, compact, aesthetically designed column speakers.
- More full-range drivers or larger drivers; better tweeter for clarity at high frequencies. This would help improve sound quality, especially for voice and music.
- Available in 100V line matching transformer version and low impedance version.

Features:-
