

PT-15+ Active Speaker

Description:-

The PENZA PT-15+ is an Active Loudspeaker System. The 3,0" compression driver offers unique vocal clarity and sound projection. The 15" woofer offers an extremely linear response and a precise, deep low frequency control. The transducers are produced using the most advanced assembly technologies. The amplifier delivers 1400 watts and is controlled by a DSP that takes care of crossover, equalization, phase control, soft limiting and speaker protections.

Key Specification:-

- Active (Powered) Speaker – Built-in amplifier eliminates the need for a separate amp.
- 1000 W RMS / 2000 W Programme Power – Strong output suitable for medium-to-large PA applications.
- Two-Way Configuration – Separate low (woofer) and high (compression driver) frequency components for clear full-range sound.
