

PG-026 GARDEN SPEAKER

Description: The PG-026 Garden Rock Speaker is a compact 30W outdoor speaker designed to blend naturally into gardens, landscapes, parks, resorts, pathways, and other outdoor areas. Its realistic rock-style FRP enclosure provides a discreet appearance while the 6-inch speaker delivers clear and balanced background audio. With 100V line operation, it is suitable for distributed audio and public-address installations over larger areas.

KEY FEATURES

- 30W power output with a 6-inch speaker driver.
- 100V line operation for distributed audio systems.
- Natural rock-style design for discreet outdoor installation.
- Durable FRP construction with 90 dB sensitivity.
- Wide 80 Hz - 20 kHz frequency response.
